Technical Amendments; Organizational Changes; Miscellaneous Editorial Changes and Conforming Amendments

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This rule amends Title 46, Code of Federal Regulations to reflect recent agency organizational changes. It also makes editorial changes throughout the title to correct addresses, update cross-references, and other technical corrections requested by the Federal Register. This rule makes no substantive changes to current regulations.

EFFECTIVE DATE: This rule is effective on September 29, 1995.

ADDRESSES: Unless otherwise indicated, documents referred to in this preamble are available for inspection or copying at the office of the Executive Secretary, Marine Safety Council (G-LRA/3406), U.S. Coast Guard Headquarters, 2100 Second Street SW., room 3406, Washington, DC 20593-0001 between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (202) 267-1477.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Drafting Information

The principal persons involved in drafting this document are Janet Walton, Project Manager, Standards Evaluation and Development Division, and C.G. Green, Project Counsel, Office of Chief Counsel.

Background and Purpose

Each year Title 46 of the Code of Federal Regulations is recodified on October 1. This rule makes miscellaneous editorial changes and conforming amendments, including changes brought about by the reorganization of the Office of Marine Safety, Security and Environmental Protection (G-M) at Coast Guard Headquarters, to be included in the 1995 recodification of Title 46.

Although the office of G-M recently went through a comprehensive reorganization, its functions are unchanged. This rule reflects the redistribution of office functions and responsibilities to the three new directorates and their subordinate divisions in the Office. Paragraph (b)(1) of § 1.01-10 has been rewritten to describe the new directorates and divisions and nomenclature changes have been made throughout the Title. These new organizational elements have been functioning since August 1, 1995, and this document will update their descriptions in the Code of Federal Regulations.

The rule also makes editorial changes throughout the title to correct addresses, update cross-references, and other technical corrections requested by the Federal Register. The rule does not change any substantive requirements of existing regulations.

Since this amendment relates to departmental management, organization, procedure, and practice, notice and comment on it are unnecessary and it may be made effective in fewer than 30 days after publication in the Federal Register. Therefore, this final rule is effective upon publication in the Federal Register.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has not been reviewed by the Office of Management and Budget under

that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. As this rule involves internal agency practices and procedures, it will not impose any costs on the public.

Collection of Information

This rule contains no collection-of-information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

The Coast Guard has analyzed this rule under the principles and criteria contained in Executive Order 12612 and has determined that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that under paragraph 2.B.2 of Commandant Instruction M16475.1B, this rule is categorically excluded from further environmental documentation. This exclusion is in accordance with paragraphs 2.B.2.e. (34) (a) and (b), concerning regulations that are editorial or procedural and concerning internal agency functions or organization. A "Categorical Exclusion Determination" is available in the docket for inspection or copying where indicated under **ADDRESSES**.

2. In § 1.01–10, paragraph (b)(1) is revised to read as follows:

§ 1.01–10 Organization.

* * * * *

(b) * * *

(1) The Chief, Office of Marine Safety, Security and Environmental Protection, under the general direction of the Commandant, directs, supervises and coordinates the activities of the Directorate for Standards, consisting of the Design and Engineering Standards Division, the Operating and Environmental Standards Division, and the Standards Evaluation and Development Division; the Directorate for Field Activities, consisting of the Compliance Division, the Response Division, and the investigations and Analysis Division; and the Directorate for Resource Management, consisting of the Planning and Resources Division and the Information Resources Division. The Port Safety and Security programs administered by the Chief, Compliance Division and the Marine Environmental Response programs administered by the Chief, Response Division are guided by regulations contained in 33 CFR chapter I. The Chief, Office of Marine Safety, Security and Environmental Protection exercises technical control over the Director, National Maritime Center and, through the District Commander, supervises the administration of the Marine Safety Divisions of District Offices and officers in Charge, Marine Inspection.

(i) The Director for Standards (G–MS), under the general direction and supervision of the Chief, Marine Safety, Security and Environmental Protection, establishes federal policies for development of marine safety, security, and environmental protection treaties, laws, and regulations; develops safety, security and environmental protection standards for the maritime industry; integrates all marine safety and environmental protection regulatory programs; prepares legislation, regulations, and industry guidance for new safety, security, and environmental protection programs; and maintains an active program for development of third party consensus industry standards.

(A) The Chief, Design and Engineering Standards Division (G–MMS), at Headquarters, under the direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Standards, manages the program for defining the overall regulatory approach for vessels, offshore structures, and other marine systems incorporating safety considerations regarding the role of the human element; develops policies and

regulations on load line matters and supervises classification societies authorized to assign load lines on behalf of the Coast Guard; oversees the development and maintenance of programs that incorporate risk-based methods in making safety determinations and policies; and oversees technical research and development for safety and environmental protection associated with marine vessels, structures and facilities.

(B) The Chief, Operating and Environmental Standards Division (G–MOS), at Headquarters, under the direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Standards, coordinates and integrates program standards for personnel qualification, vessel manning, vessel and facility operations, cargo systems and handling, and environmental protection; develops and maintains standards, regulations and industry guidance for maritime industry operations to prevent deaths, injuries, property damage, and environmental harm; develops and maintains safety standards and regulations for commercial fishing industry vessels and uninspected commercial vessels; and develops and maintains health and safety standards and regulations for U.S. inspected vessels.

(C) The Chief, Standards Evaluation and Development Division (G–MES), at Headquarters, under the Direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Standards, coordinates the development of new standards and programs across all technical and operational areas of marine safety, security, and environmental protection; provides comprehensive analytical support for all standards assessment and development efforts; and coordinates development of measures of effectiveness for assessing regulatory programs and consensus standards.

(ii) The Director for Field Activities (G–MO), under the general direction and supervision of the Chief, Office of Marine Safety, Security and Environmental Protection, acts as Program Manager for the Marine Safety, Security and the Marine Environmental Protection Programs; directs, coordinates, and integrates the Coast Guard's marine safety and environmental protection compliance programs, contingency planning, response operations, and investigations programs; establishes and coordinates field implementation policies and priorities for all marine safety commands and units; and serves as the

focal point for field support and technical guidance.

(A) The Chief, Compliance Division (G-MCO), at Headquarters, under the direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Field Activities, administers and balances all marine safety and environmental protection compliance programs, including direction of Coast Guard activities and oversight of third parties and industry programs; develops, publishes and maintains program policies for vessel compliance, interprets standards and regulations, and provides field guidance for execution and enforcement; administers the marine inspection program and foreign vessel boarding program for the enforcement of commercial vessel material and operational safety standards; and supervises the administration of licensing and documenting of merchant personnel, the issuance of certificates of registry to merchant marine staff officers, and the manning of U.S. vessels.

(B) The Chief, Response Division (G-MRO), at Headquarters, under the Direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Field Activities, coordinates and integrates field planning, preparedness, and response operations for pollution incidents, natural disasters, marine accidents, terrorism, and other threats to public safety, the marine environment, or marine transportation and commerce; develops, publishes, and maintains program policies for preparedness and response, interprets laws and regulations, and provides field guidance for execution; provides guidance regarding emergency authorities of the Captain of the Port (COTP); and administers Office programs for ports and waterway management, bringing compliance and response efforts with an active presence in the marine environment.

(C) The Chief, Investigations and Analyses Division (G-MAO), at Headquarters, under the direction of the Chief, Office of Marine Safety, Security and Environmental Protection and the Director for Field Activities, reviews investigations of marine casualties; reviews records of proceedings to suspend and revoke licenses, certificates, and documents held by maritime personnel; and compiles, maintains, reviews, and evaluates statistics obtained from marine casualty investigations.

(iii) The Director for Resource Management (G-MR), under the general direction and supervision of the Chief,

Office of Marine Safety, Security and Environmental Protection, serves as Facility Manager for the marine safety programs; coordinates and integrates financial, informational, and human resources; plans, acquires, develops, and allocates resources for development and execution of the Coast Guard's marine safety programs; provides the focal point for all resource issues in support of the Standards and Operations Directorates; and oversees the development and management of the Coast Guard's direct user fee program.

(iv) The Director, Coast Guard National Maritime Center (NMC) under technical control of the Chief, Office of Marine Safety, Security and Environmental Protection, administers operational and administrative control of the Marine Safety Center which conducts reviews and approvals of plans, calculations, and other materials concerning the design, construction, alterations, and repair of commercial vessels to determine conformance with the marine inspection laws, regulations, and implementing directions; administers operational and administrative control over the National Vessel Documentation Center which administers U.S. vessel identification and documentation; oversees and administers the U.S. tonnage measurement program which measures U.S. naval vessels and oversees issuance of international and domestic tonnage certificates; administers merchant mariner licensing and seaman's documentation; and oversees the national pilotage program.
